COMING UP

Happening In May:

May 1st-Fire Drill
May 4th-1st Field Trip
May 10th -Early Release
& Sprit Day
May 16th Leadership
Lunch
May 18th Field Day &
Sprit Day
May 29th – Leadership
Assembly
May 30th –Talent Show
& Last Day of School

Find Your Voice is our new habit. It's Habit 8! Finding your voice means to find your true nature and gifts, then use them to help others find their talents. The teachers here at Line Creek wanted us to do the same, or at least start by finding our voices, so we participated in Interest Based Clubs on early release day in April! There were many options to choose from so the teachers put together a survey for us to fill out. Here are a few that many Line Creekers participated in:

- Cooking (Made wraps and yogurt parfaits)
- Dance (Practiced some dance moves ☺)
- Singing (Sang songs)
- Cup Stacking (Learned how to cup stack)
- Random Acts of Kindness (Did many secret RAK things)
- Board Games (Played lots of fun board games!)
- Dogs (Made chew toys and learned dog care)
- The Harry Potter club (Got "sorted" into a house and made fun Harry Potter stuff!)
- League of Classy Gentlemen (Learned how to tie a tie and treat others nicely)

We will do another interest based club meeting in May! Can't wait to see the fun things we will be learning and practicing. Thank you to all of our teachers and staff who work hard to help us "Find Your Voice"! (By: Lily Moore)

Habits at School: My Favorite Habit

This month each class gets to pick their own habit to work on. All of the habits are a little different but they all work together to help us work hard, get better at things and be kind to others. One of our favorite habits is to synergize. When people work together they synergize. That means everyone helps and shares ideas. Things get done and people are happy. Another favorite habit is Think Win-Win. Thinking Win-Win means that you don't get stuck on feeling sad or mad about something. You think positive and find a solution to problems. We are starting to learn about a new habit, Habit 8, Find Your Voice. This means we find something we are good at or like doing and use our talent to help others! Wouldn't everyone be happier if we all practiced the Habits?!

Oh What Do You Do In The Summertime?

By: Lauren Criswell, Laurel Barton & Abby Foster

Have you ever gotten bored in the summer? Well if you have, we asked the classes and staff at Line Creek what their favorite things to do in the summer are. The top three choices were 1st: Swimming, 2nd: Traveling, and Playing Outside, 3rd: Having Family Over.

We also asked them how they keep learning. Those who took the survey replied by saying: 1st: Reading, 2nd: Exercise, and 3rd: Going to the Zoo.

Lion Leader Press journalists enjoy all those things too! We also like to run, play sports, exercise, and go bowling. Lion Leader Press keeps on learning by going to summer school, watching storyline online, and doing science experiments.

We also keep learning by doing the summer by doing the reading program, going to the Library, and reading on RAZ-kids!

Give Summer School a Try!

Have questions about summer school? Wonder if it's for you? We sat down with Dr. Reno (summer school principal) and got some answers. First of all summer school is going to be at Line Creek and only Line Creek students will attend. To register get a paper from the office and have your parents fill it out. You can still ride the bus if that's how you come to school, or participate in Adventure Club. Sign up is going on now, don't put it off, register soon! Summer school will start on June 4th and go through July 3rd. Dr. Reno said that it is a great way to get ready for next school year and not forget everything you learned. But, it's not required and you won't get to move to a higher grade but there are lots of fun things that go on during summer school. It will start at 7:45 AM which is earlier than regular school but it gets over at 2:25 PM. Plenty of time to play with friends or do other fun things in your neighborhood. Hope to see you there!

Understanding a Kid's Brain

The amygdala is the part of your brain that controls your emotions. Emotions like happiness, sadness, anger, fear, and frustration. The average size of an amygdala is the size of 1-2 almonds (wikipedia).

The cerebrum is the part of your brain that controls most of your social interactions. Your amygdala and your cerebrum often work together to form your social interactions.

Having developmentally appropriate expectations will help you feel less frustration and take your child's behavior *less personally*. We all have ideas about what's appropriate based on the beliefs of our family, society, or culture in which we live. We send our children messages about who we think they are and how society views them through our language and interactions (teachthroughlove.com)

Hey we are asking the questions!

Build a Table Top Hovercraft

Materials Needed:

CD or DVD
9" balloon
Pop-top cap from a water bottle
Hot glue gun
Tape

Directions: Cover the center hole of the CD with a piece of tape and poke about 6 holes in the tape with a push pin or nail. Use the hot glue gun to glue the cap to the center of the CD. Make sure there is a good seal. Blow up the balloon all the way, pinch the neck but don't tie! Make sure the pop-top is closed and fit the balloon over the pop-top cap (You might need a friend or sibling to help you). Ready to hover? Put it over a smooth surface and pop the top open!

CINCO DE MAYO!

Teacher Appreciation Week

By Avery

Mother's day

See You Later!

Thank you for reading our student newspaper this year. We had lots of fun creating and writing about things we like! See you next school year!
